

## UAE MARITIME INDUSTRY ASSOCIATION

- Scope of marine industry associations, national or international, is to bring together different professionals, companies and maritime authorities, who share the same industry and clients.
- In the last few years, the nautical and marine industry in the United Arab Emirates has experienced significant growth
- As a consequence, there is an increasing interest from the nautical community to meet and share knowledge, information, problems and support each other's business

## UAE MARITIME INDUSTRY ASSOCIATION

- Non-associated nautical “lobbies” already exist in UAE and, together with the marine authorities and developers, have contributed to the development of the UAE maritime industry in the last 20 years
- A formal unification of the nautical community under the same organization and/or association (*EAMI - the Emirati Association of Marine Industry*) will make the UAE nautical industry stronger, more compact and would be of great benefit for the reputation of the Country in the wider community
- Partnerships and collaborations with the most reputable international marine associations (ICOMIA, AMI, MIA, GMI, etc.) will support the existent know-how and will help in the development of the UAE yachting industry and community, at international level
